**Re:** Toyota DMS Integration Program

---

The team at ADAM Systems is happy to announce we have been selected by Toyota Motor Sales USA (TMS/USA) to participate in their Dealer Management System (DMS) Integration Program. Programming has already begun and we are making solid progress with this important project.

This is great news for Toyota franchised dealers in the U.S. and Puerto Rico. The TMS/USA DMS Integration Program includes 18 new interfaces that will connect Toyota's Dealer Communication System, Dealer Daily to the ADAM DMS.

Once complete, these interfaces will be some of the most comprehensive in the industry. Look for more information in the coming weeks as we complete development and testing.
